Biophysicist Andreas Kalcker: Chlorine Dioxide is a 100% effective cure for covid

Wed 10:34 am +01:00, 17 Nov 2021 2

posted by Weaver

Biophysicist Andreas Kalcker has developed a 100% effective cure for COVID-19 and all its variations. He has been researching a substance called chlorine dioxide for over 13 years. NASA labeled this substance 'The Universal Antidote' in 1987. His treatment was first used for COVID-19 by the military, police and politicians in Bolivia, who all recovered in four days. A law was then passed making it a nationwide treatment. As a result, the rate of 100 deaths a day went down to virtually zero. A clinical trial then confirmed the efficacy of this treatment against COVID-19.

Now over 5,000 physicians in 25 nations use chlorine dioxide (or in short, CDS) to save lives.

Andreas Kalcker, however, encountered something astonishing: the moment it became known that his treatment was curing people from Covid, he was massively censored. All his social media pages were take down, his scientific account on ResearchGate.net was deleted, his book was removed from Amazon, and he has been slandered all over the internet. It is obvious that this cure for Covid must be hidden at all costs.

Learn about chlorine dioxide – the Universal Antidote – and discover WHY Andreas Kalcker has been censored, in the following video.

EVENTS COMING UP

The Alternative View Presents

Date: 24 March 2024

Time: 11:00 AM - 3:30 PM

Location: The Assembley Rooms, Glastonbury, UK

Tickets and Info

Join us for the first The Alternative View Presents with Gary Fraughen

Gary will be sharing his research and speaking about many subjects including:

Blue shift radiation
Super fluid consciousness with servants
Savants and greed
Numbers in the cracks and crevices of the universe
The universal balance sheet of doing harm to others

This is your opportunity to get up close and personal with Gary. This will be a more intimate event with plenty of opportunity for questions and discussion.

Tickets and Info

The Alternative View Conference 14

Date: 26 May 2024

All-day event

Location: The Leonardo Hotel, Midsummer Boulevard, Milton Keynes, MK9 2HP, UK

Tickets and Info

CLINICAL TRIAL CONFIRMS CDS

The clinical study showed that chlorine dioxide is effective in patients treated with oral ClO2, and that its use in the COVID-19 pandemic becomes and positions itself as a great hope for control of the pandemic, based on the scientific foundations revealed in previous research. We are looking at a solution that can end the pandemic, now scientifically proven: CDS saves lives!

DOWNLOAD CLINICAL TRIAL

HOW TO MAKE AND USE CDS

This video explains how you can easily make your own Chlorine Dioxide. You can also see protocols, download a course, or buy books teaching the use of CDS.

Chlorine Dioxide: The Universal Antidote

THE UNIVERSAL ANTIDOTE

The Science and Story of Chlorine Dioxide

NASA proclaimed it a universal antidote in 1987. Since that time, thousands have recovered from various illnesses using this substance, and now many physicians and scientists are saying it is powerfully effective for many applications. The documentary below explores the history, safety, and efficacy of the universal antidote and provides interviews with physicians and people who have used it.

A Big Thank You

A big thank you to those of you who attended the AV13 Conference in Milton Keynes. It was fantastic to finally get back together and welcome old friends and newcomers to a very enjoyable and memorable event. We are already already working on the next AV events.

If you didn't make it to AV13 we now have the presentation recordings available.

Regards and best wishes.

The AV Team.

2 Responses to "Biophysicist Andreas Kalcker: Chlorine Dioxide is a 100% effective cure for covid"

18 Nov 2021 4:50 PM

Tapestry says:

Oxygen cures Covid as does Ozone, which also cures the spike protein effects, according to Dr Makwits. I guess (not watched yet although I read similar before) Chlorine Dioxide is just another way to deliver oxygen. Is Clo2 a way to stop Ozone from getting looked at, the cure proposed by Dr Makowits for both COVID and the spike protein.
COVID cures are two a penny – Ivermectin, hydrochloroquine (quercetin) and ozone/oxygen. What we now need to focus on are the cures for the vaccine injuries to the immune system – to the spike protein. Does Clo2 defeat the spike protein? Anyone know?

18 Nov 2021 8:57 PM

ROTH says:

Well we're told that Ivermectin defeats the spike protein, a few doctors have come out and explained that including John Campbell and Judy Mikovits.

Ozone would be handy though, as so far they haven't deemed fit to ban ozone generators as they have the base ingredients of ClO2 i.e. sodium chlorite.

purchase you will be sent an automatic email confirmation with your password details. You have unlimited viewings for the duration of your ticket.

BOOKS

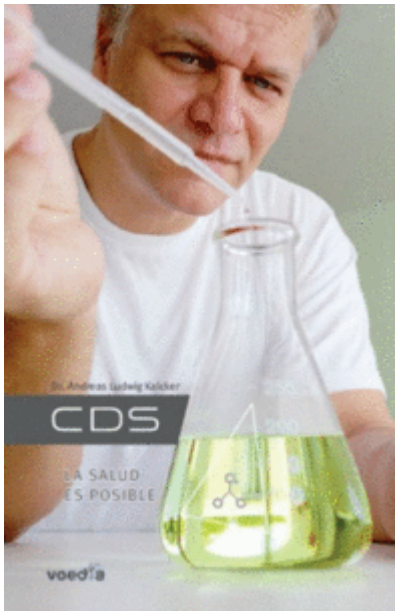
Andreas Ludwig Kalcker

FIRST BOOK: CDS - HEALTH IS POSSIBLE

The first book by Andreas Ludwig Kalcker is based on his thesis, where through via research in cattle it was possible to see the effectiveness of CDS and where it is

demonstrated that it is not a placebo experience since animals do not have the placebo effect.

To buy click here (https://voedia.com/)



(https://voedia.com/)

SECOND BOOK: FORBIDDEN HEALTH

Health is full Energy in harmonic movement.
Health is the capacity and individual and collective right to fulfill human, biological, psychological and social potential.
In recent years, my life has changed in every way. The simple fact of wanting to help others, of realizing that this world is like a 'matrix', with its own rules, where nothing is what it seems. I continue to believe that the human nucleus is of good general character and that helping others is something that we carry deep within us.

(https://voedia.com/)

THIRD BOOK: KALCKER "THE ESSENTIALS"

This mini guide is an extract from my book "Forbidden Health" with more than 400 pages of information and is aimed at people who are interested only in "the essentials and protocols", I hope it will be useful and that it will improve the state health of you or the people you love the most.

It is an inexpensive mini-book to give away or to take on a trip where the essential Protocols of the Forbidden Health Book are to give a solution on hand when it is most needed, since it can help you out of a difficult or even a serious situation.

Basic Course: ClO2 #ENGLISH

40,00€

(Net)

GO TO CHECKOUT

We are very proud to be able to satisfy your demands for contrasted and quality information, no matter where you are in the world.
Here we present the first course of our online training, it is an introductory course, a basic level, which we have made as simple as possible so that everyone can learn the basics of:

- What is chlorine dioxide and how does it work, as well as learning how to do it and use it safely at home. We will see cases of people who used it with their respective diseases, we will also analyze the progress we have made, especially with the research done by Andreas L. Kalcker, who will share his long experience with all of us. In this way we will have the necessary tools to act in case of suffering one of the innumerable ailments that can be improved or even eliminated with the use of chlorine dioxide.

Our intention is to share with everyone the information we have after more than 10 years of investigation, of cases of people who had been evicted, without any medical solution and had the courage to take charge of their own life and thus change it forever. It is too valuable information to remain hidden, so we decided to take a step forward in favor of the freedom of each person to make their own decisions and know that despite what we are told there are alternatives.

This course is dedicated to the insatiable curious who are always looking for something new, to the nonconformists who are not satisfied with believing everything they are told, to the skeptics who need to check things for themselves to create their own truth, to all those people who were told by the self-proclaimed "science of truth" that there was no solution to their problem and have decided not to give up... In short, to anyone who has the courage to take charge of his life and say: now it's up to me!

which are answered individually and quickly (usually within 24 hours). Those who wish to continue to have access to the videos and answers to questions after one year can renew their subscription annually for €20. Subscription is not compulsory, those who wish can download all the notes and relevant information before the end of the subscription period.

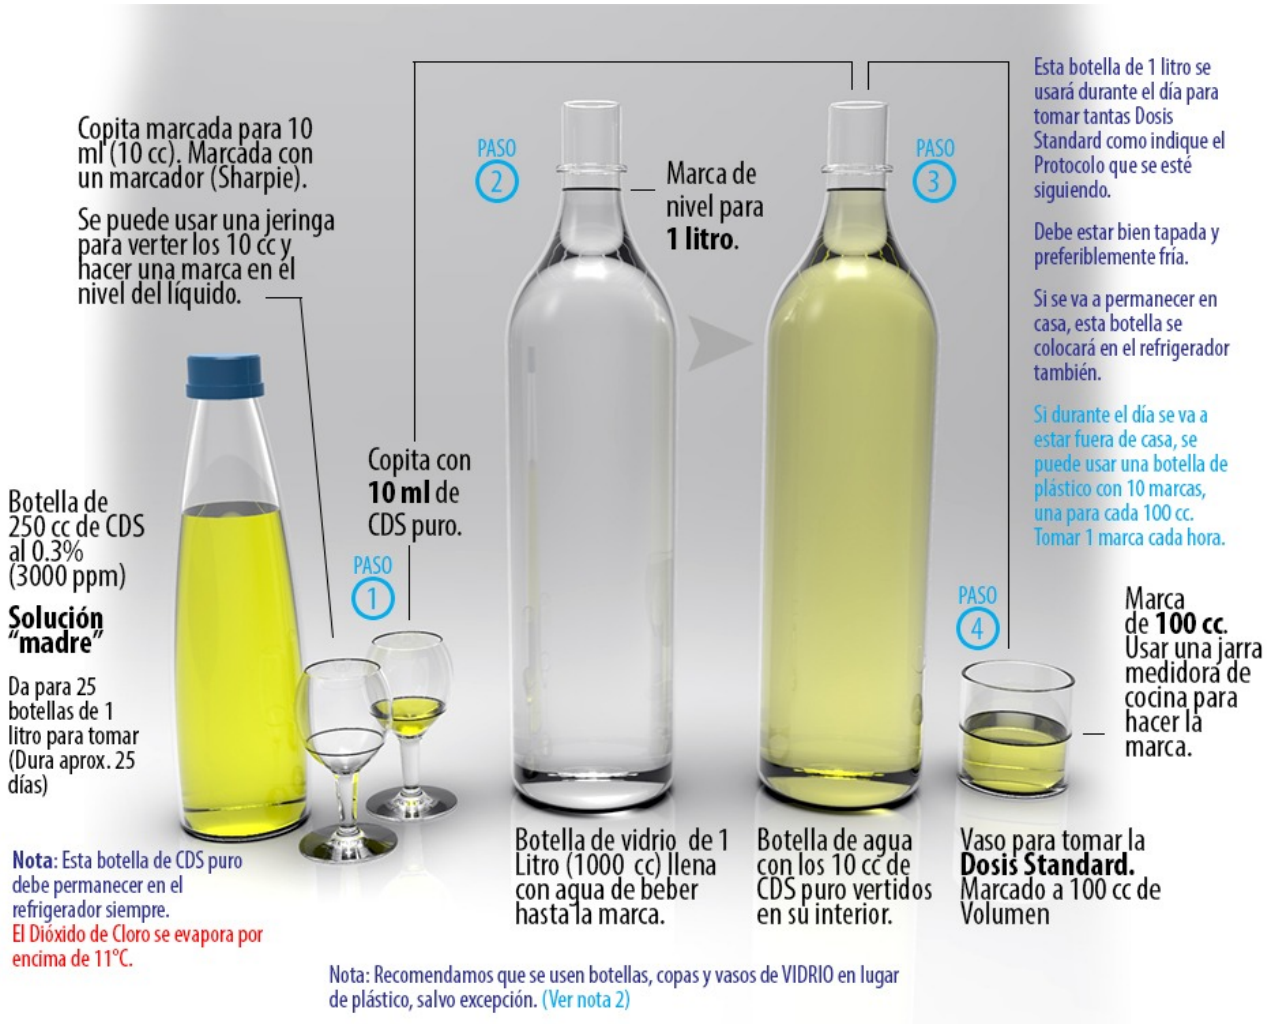
ANDREAS KALCKER PROTOCOLS

Correct use of chlorine dioxide

Spanish English German Portuguese

Como Hacer CDS por Andreas Kalcker

Spanish English German Portuguese



I want to present a new system of protocols by letters, the reason is simple since many times several protocols must be combined according to the disease, so the protocols can be easily combined for greater efficiency. I know this is going to sound weird to some, but due to the current situation this is an attempt to create a simple order.

Here we list the protocols in order:

✔ PROTOCOL A −

AS AMATEUR OR BEGINNER

The first dose is 3 ml CDS (or three activated drops (in a 1: 1 ratio if there is no CDS) adding 200 ml of water, before sleeping, on the first day of treatment.
On the second day another 3ml CDS (or three activated drops) are taken by adding 200 ml of water, one hour after breakfast and another three activated drops by adding 200 ml of water, before sleeping.
On the third day, the two previous doses are taken, after breakfast and before sleeping, adding another dose one hour after eating.
Then you continue with the same three doses, one hour after breakfast, lunch and before sleeping, the necessary time of the treatment, until you feel recovered.
This protocol is suitable for long-term application and also serves as maintenance.

✔ PROTOCOL B +

✔ PROTOCOL C +

✔ PROTOCOL D +

✔ PROTOCOL E +

✔ PROTOCOL F +

✔ PROTOCOL G +

- ✔ PROTOCOL H +
- ✔ PROTOCOL I +
- ✔ PROTOCOL J +
- ✔ PROTOCOL K +
- ✔ PROTOCOL L +
- ✔ PROTOCOL M +
- ✔ PROTOCOL O +
- ✔ PROTOCOL P +
- ✔ PROTOCOL Q +
- ✔ PROTOCOL R +
- ✔ PROTOCOL S +

These are the most important protocols. Get more information in the section **creative writing** or in the forum **www.forbiddenhealth.com (https://saludprohibida.com/)**

Warning ×

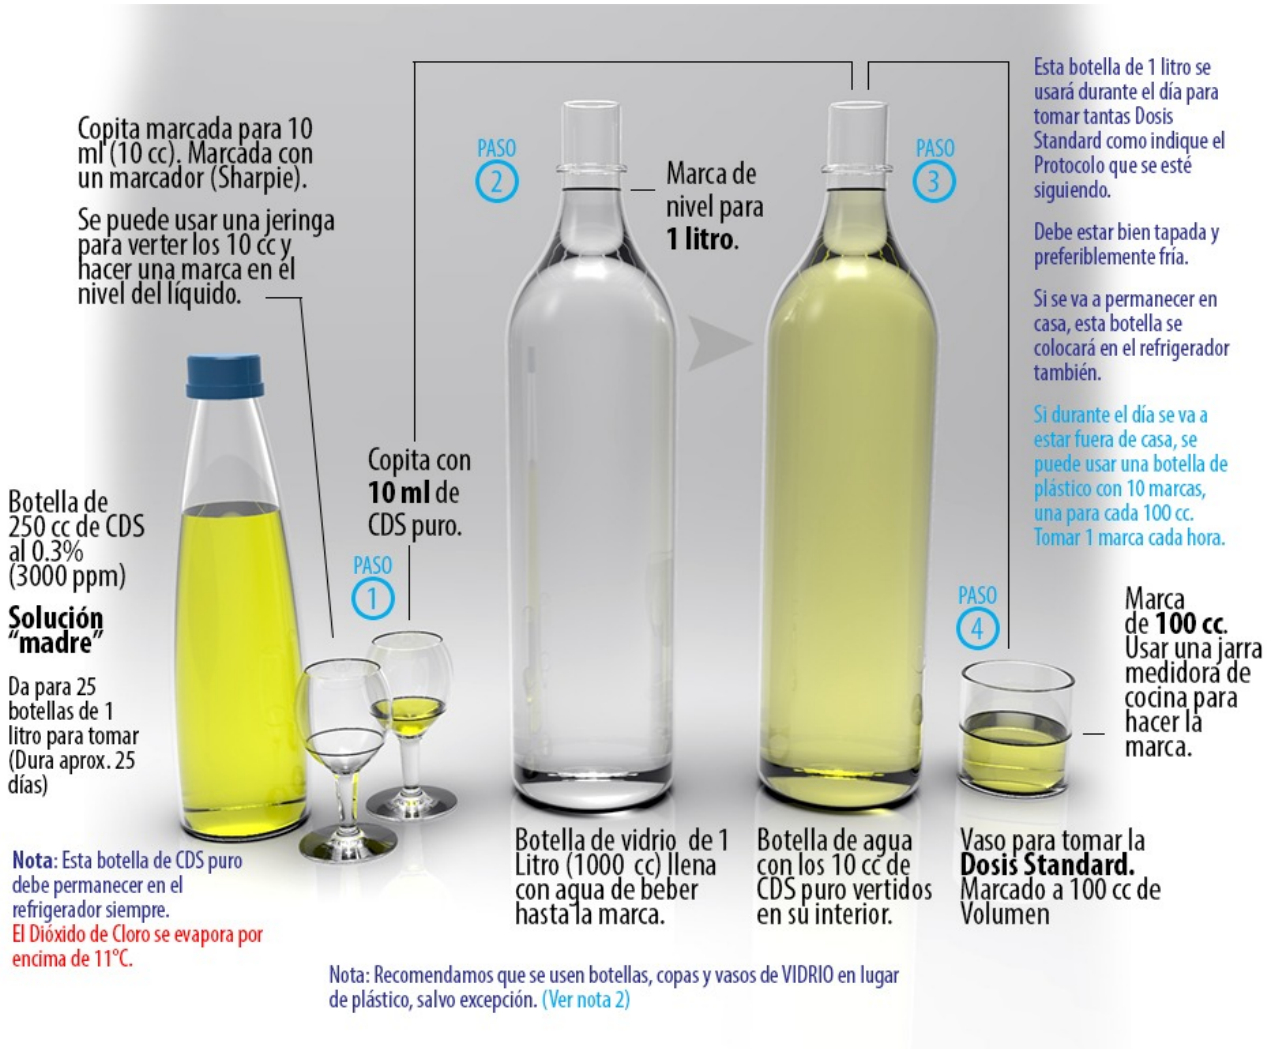
ANDREAS KALCKER PROTOCOLS

Correct use of chlorine dioxide

Spanish English German Portuguese



I want to present a new system of protocols by letters, the reason is simple since many times several protocols must be combined according to the disease, so the protocols can be easily combined for greater efficiency. I know this is going to sound weird to some, but due to the current situation this is an attempt to create a simple order.

Here we list the protocols in order:

✔ PROTOCOL A +

✔ PROTOCOL B –

AS BASIC (EQUIVALENT TO OLD PROTOCOL 1000 by Jim Humble)

Usually it begins with a low dose of 6 daily activated drops, adding them to a bottle of 1 to 1,5 liters of water, during the first 3 days; then the dose is increased to about 12 activated drops, adding them to a bottle of 1 to 1,5 liters of water, during the next 4 days; then up to 18 drops daily, adding them to a bottle of 1 to 1,5 liters of water, for 7 days, and finally up to 24 drops, adding them to a bottle of 1 to 1,5 liters of water, for a period of 7 days more.
The daily dose should always be taken throughout the day, divided into 8 to 12 parts (marks can be made on the bottle). It is advisable to activate the corresponding daily dose every morning, and add it to a bottle of 1 to 1,5 liters of water and drink a little every hour, during the rest of the treatment, whose standard duration is three weeks, or the necessary time treatment, until you feel recovered.

If nausea is experienced, the dose will be reduced to the previous level.
6 drops 3 days in a bottle of 1 to 1,5 liters of water.
12 drops 4 days in a bottle of 1 to 1,5 liters of water.
18 drops 7 days in a bottle of 1 to 1,5 liters of water.
24 drops 7 days in a bottle of 1 to 1,5 liters of water.

The sicker a person is, the slower the increase in dose has to be.

One activated drop of sodium chlorite with the acid is equivalent to approximately 1 ml of CDS

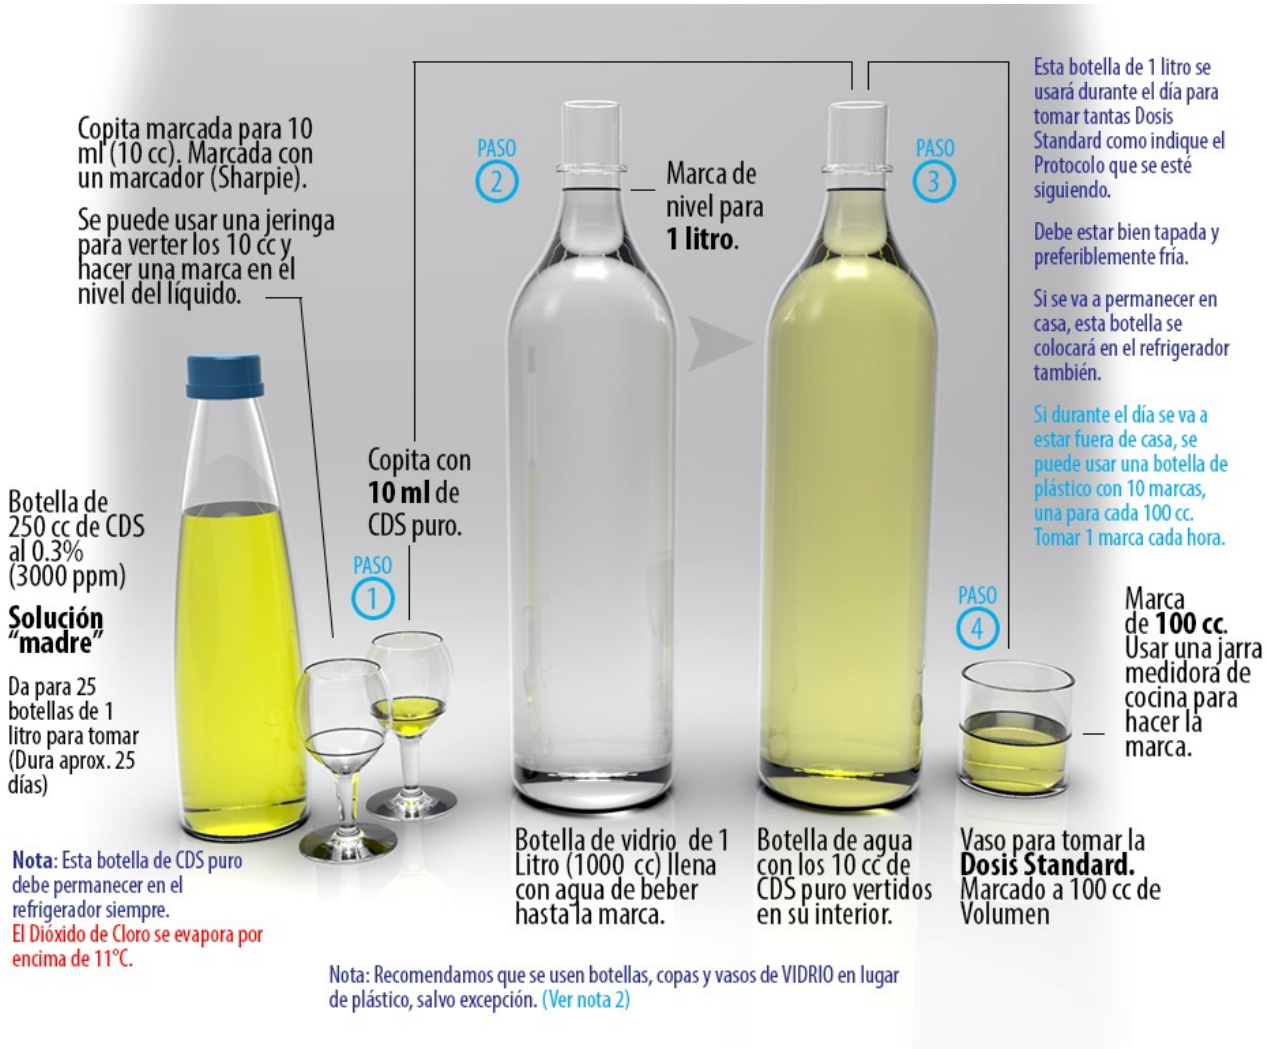
ANDREAS KALCKER PROTOCOLS

Correct use of chlorine dioxide

Spanish English German Portuguese



I want to present a new system of protocols by letters, the reason is simple since many times several protocols must be combined according to the disease, so the protocols can be easily combined for greater efficiency. I know this is going to sound weird to some, but due to the current situation this is an attempt to create a simple order.

Here we list the protocols in order:

- ✔ PROTOCOL A +
- ✔ PROTOCOL B +
- ✔ PROTOCOL C –

AS CDS (OLD PROTOCOL 101)

10 ml of CDS 3000 ppm (or 100 ml of CDS 300 ppm) are added to 1 liter of water, per day.
One part is taken every hour, until the contents of the bottle are finished (8 to 12 doses).
In case of serious illness or danger to life, the dose should be increased, slowly and progressively, in separate doses, taken throughout the day and depending on how you feel, reaching max. 30 ml per liter of water. If it is necessary to drink more, prepare another bottle of water. The dose should be reduced if you feel sick or nauseous. 60 ml should not be exceeded in 12 daily doses (5 ml / h for 100 kg).
The duration of the treatment would be the time necessary, until you feel recovered (dose response).

- **Protocol C = 10 ml of CDS 3000 ppm in 1 liter of water, for day**.

The C protocol is the one used to treat most diseases and also to do a general cleaning of toxins or 'detox'. It is also A detoxification procedure, probably the most effective known. To date it does not give problems of side effects or unwanted interactions, and it does not usually cause diarrhea when completely absorbed in

the stomach. If you are taking other medications, you should keep a safe distance of time, from one to two hours, so that you do not lose the effectiveness of the CDS.

10 ml of CDS 3000 ppm are added to 1 liter of water, per day.

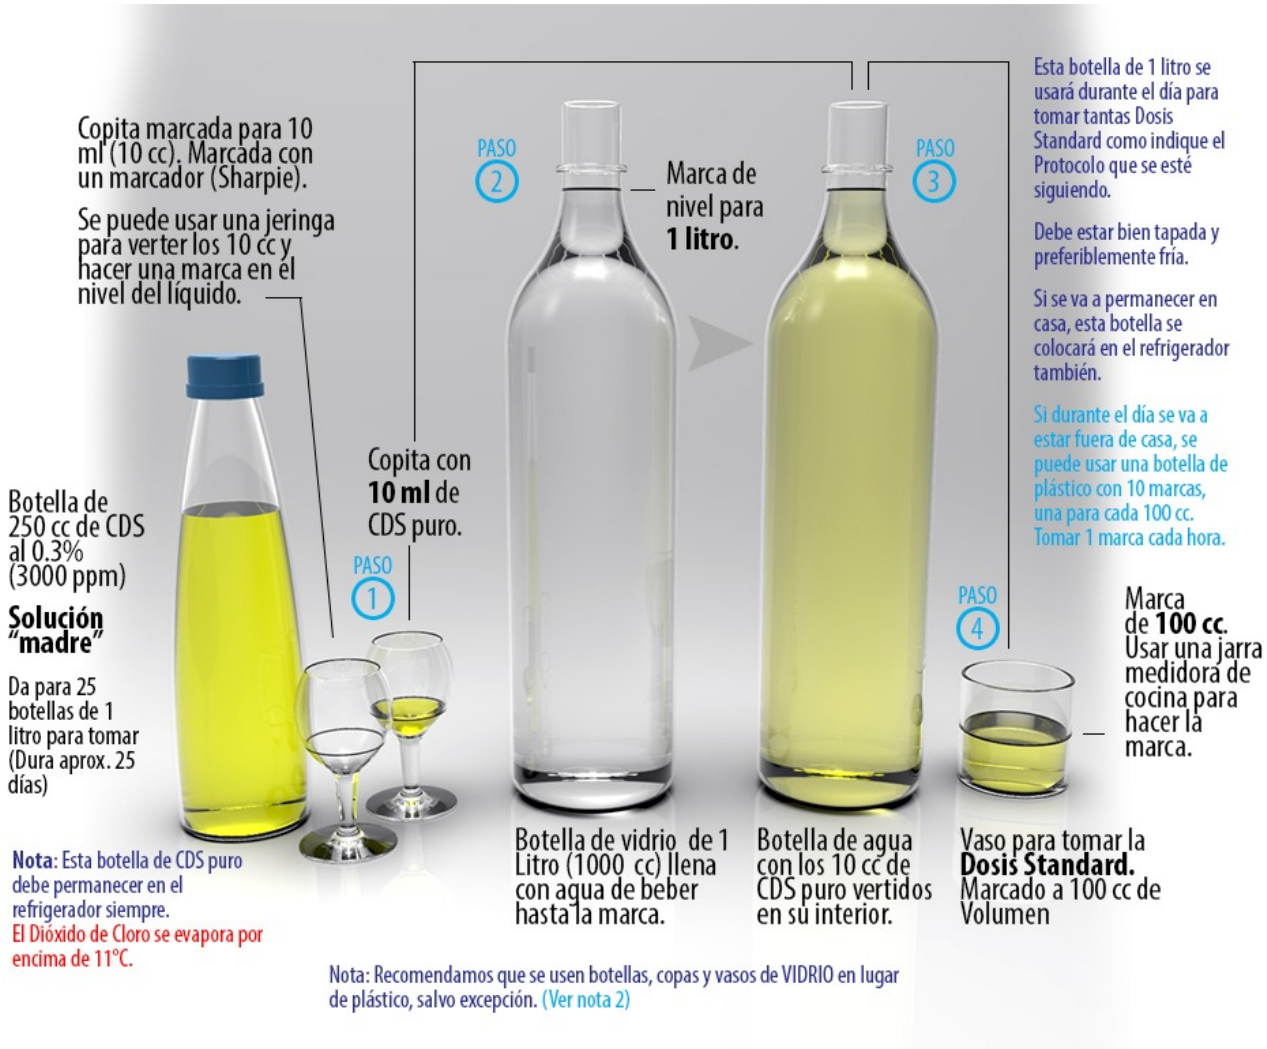
ANDREAS KALCKER PROTOCOLS

Correct use of chlorine dioxide

Spanish English German Portuguese



I want to present a new system of protocols by letters, the reason is simple since many times several protocols must be combined according to the disease, so the protocols can be easily combined for greater efficiency. I know this is going to sound weird to some, but due to the current situation this is an attempt to create a simple order.

Here we list the protocols in order:

- ✔ PROTOCOL A +
- ✔ PROTOCOL B +
- ✔ PROTOCOL C +
- ✔ PROTOCOL D –

DERMATOLOGICAL, FOR THE SKIN

A spray nozzle is filled with CDS 0,3% (3000 ppm) and applied to the affected area. It is applied directly to the skin in case of wounds, burns or other skin problems. The solution should not cause stinging or burning, rather it relieves pain and bleeding. The operation can be repeated several times a day (even once an hour). In some sensitive cases, such as mucous membranes, it may be necessary to lower the concentration with a little water. It is not used for occlusive dressings in concentrated form!

- ✔ PROTOCOL E +
- ✔ PROTOCOL F +
- ✔ PROTOCOL G +
- ✔ PROTOCOL H +

- ✔ PROTOCOL I +
- ✔ PROTOCOL J +
- ✔ PROTOCOL K +
- ✔ PROTOCOL L +
- ✔ PROTOCOL M +
- ✔ PROTOCOL O +
- ✔ PROTOCOL P +
- ✔ PROTOCOL Q +
- ✔ PROTOCOL R +
- ✔ PROTOCOL S +

These are the most important protocols. Get more information in the section **creative writing** or in the forum **www.forbiddenhealth.com (https://saludprohibida.com/)**

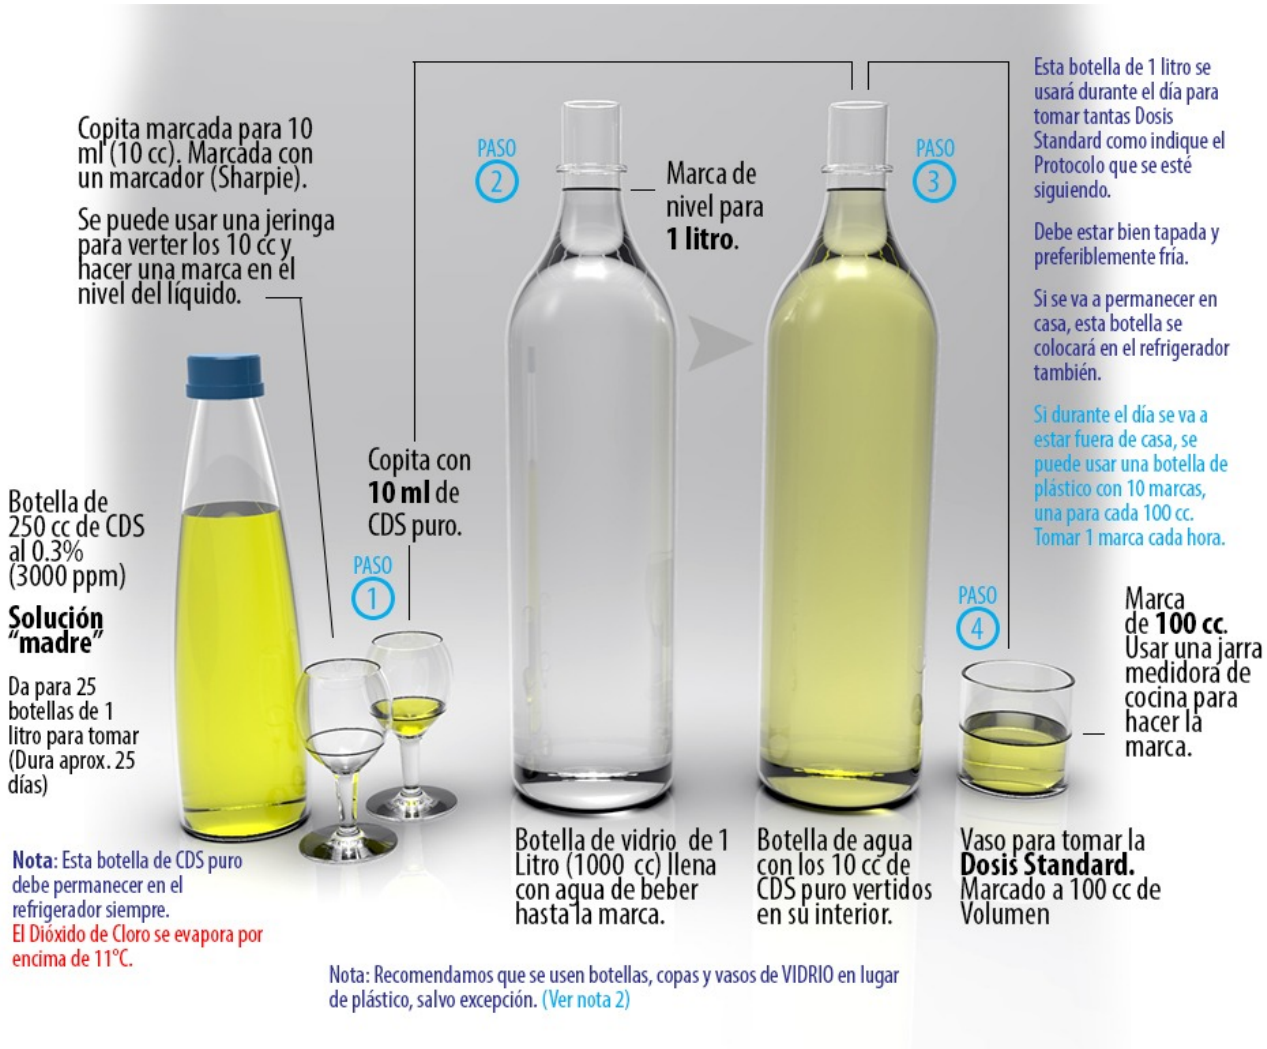
ANDREAS KALCKER PROTOCOLS

Correct use of chlorine dioxide

Spanish English German Portuguese



I want to present a new system of protocols by letters, the reason is simple since many times several protocols must be combined according to the disease, so the protocols can be easily combined for greater efficiency. I know this is going to sound weird to some, but due to the current situation this is an attempt to create a simple order.

Here we list the protocols in order:

- ✔ PROTOCOL A +
- ✔ PROTOCOL B +
- ✔ PROTOCOL C +
- ✔ PROTOCOL D +
- ✔ PROTOCOL E –

AS ENEMAS

10 ml of CDS (or 10 drops of activated CD) is used for every liter of warm water, at approximately body temperature. Intestinal irrigators are usually about 2 liters. The irrigator is filled with water and the CDS is added. A little petroleum jelly or cream is applied to the tip of it, while it is inserted into the rectum. The best position is to lie on the right side to facilitate easy penetration of the water. The valve opens and the colon begins to fill. It can be done in several small batches or also in one go, depending on the conditions and well-being of the person.
Try to retain the liquid for about three minutes before evacuating, to increase efficiency. More than five minutes is not necessary. 10 ml of CDS for each liter of warm water or alternatively 10 activated drops of CD for each liter of warm water.

This protocol is essential in cases of chronic liver diseases, parasitosis, autism and other gastrointestinal diseases.
Depending on the degree of the disease and the patient's condition, it is usually applied up to once a day, preferably at night, before sleeping. As a general rule it is used every two or three days for one or two weeks. There are reports of people

who have used this protocol up to twice a day, for a long time, for serious illnesses, without having had negative side effects in most cases. It is best to adapt it to each person. You can add sea water: 1 part sea water + 3 fresh water.

Many people have found the YOGUI system very useful:
- 3 nights in a row.
- 3 nights: one yes and one no.
- 3 nights: every 3 days.
- 3 nights, one per week.

Although this protocol is effective, for hemorrhoids and rectal fissures it is more easy to apply P knob protocol.

- Most diseases have their origin in the intestinal gastric system.
- CDS eliminates toxicity and breaks adhesions.
- By eliminating toxicity, fatigue is reduced.
- CDS removes biofilm, bacteria, candida, fungus, encapsulated fecal matter, and protozoan parasites

✔ PROTOCOL F +
